

Report to Council June 2025.

Aymestrey Parish Commons Association (APCA). Insurance

Zurich Insurance has not been asked for comment on the following, which is based on experience at other councils.

As APCA is separate from the Parish Council (PC), not organised by or run by the PC, it is my understanding it is not covered by the PC's insurance.

If APCA were run by the PC, and volunteers were under the instruction of the PC, they would be covered once the following is implemented.

- Appropriate training for all volunteers.
- Provision of personal Protective Equipment.
- Regular servicing of power tools.
- Risk Assessments.

Alternatively, the Parish Council may wish to consider a grant to assist the group with insurance costs as a separate independent entity. Figures are not yet known.
