## 12. Contents of Information Sheet noted, in particular that two road defects reported on the Herefordshire Council CONFIRM system had been completed.

The Chairman advised the council that: The Draft Minerals and Waste Local Plan (MWLP) is to be discussed by Herefordshire Council's Cabinet on Monday 1 December. Cllr Hamilton reported:

The draft MWLP does not address any issues raised in Aymestrey Parish Council's response to the plan, submitted in February 2019. Its main concern was the proposal to extend Leinthall Earls quarry. Although it was recognised that the quarry is one of only two sources of crushed limestone in the county, the Parish Council asked that the plan should strengthen its ambitions for a "circular economy" i.e. increasing the use of recycled materials to reduce the amount of new aggregate required for new development.

The draft plan includes a single policy – SP1 – which is supposed to deliver this, but fails to do so. The broad objection is that it doesn't contain any thresholds or targets and does not place any obligation on the Council or developers to deliver its aims.

In respect of the quarry, the MWLP says at 6.2.13: *"In addition, at the time of preparing the MWLP, there were two active crushed rock quarries in Herefordshire, with the planning conditions for Leinthall Quarry requiring that the winning and working of minerals at that site must cease by 31 August 2027. There may remain a need for additional reserves of crushed rock to be permitted to meet demand from 2027 onward."*

However, the relevant policy (M4) makes clear that the extension of the quarry has already been allocated and is central to the delivery of aggregate throughout the plan period (to 2041).

It was agreed that Cllr Hamilton will send a question to be submitted by Ward Cllr Carole Gandy through her group leader, Cllr Lester as follows:

*"How will the measures in the plan deliver the "circular economy" and in particular reduce the County's dependence on quarried aggregate?"*
